Travelling

EDUCATION

B.SC Computer Science Bowen University

09/2016 - 11/2020

4.84/5.00 CGPA

Grade

- First Class Honours (Best graduating student in both department and college)

WORK EXPERIENCE

Software Engineer Camelcase Technologies

07/2021 - Present

Lagos, Nigeria

Achievements/Tasks

- Built RESTful APIs to serve data to the frontend of a Loan / Savings application.
- Reconstructed an application frontend to a component-based structure to allow for efficient maintenance and also allow components to be reused.
- Created frontend components and views to consume data coming from an already existing backend service.
- Built static and dynamic websites for clients.

Contact : Mr Temitayo Bodunrin - 08028151478

Software Engineer Providum

04/2020 - 02/2022

Lagos, Nigeria

Achievements/Tasks

- Worked with project managers to re-architect the Providum user dashboard, adding visualizations and improving the overall user experience.
- Using Next.js, I built a QR Code Scanner and Scheduler PWA to replace the existing Android app. This increased efficiency while reducing maintenance costs.
- Built RESTful APIs using Laravel 8 to serve data to the Javascript frontend.
- I partnered with a developer to build an internal dashboard to handle analytics of the Providum software using Laravel and Backpack.
